

Video Skype

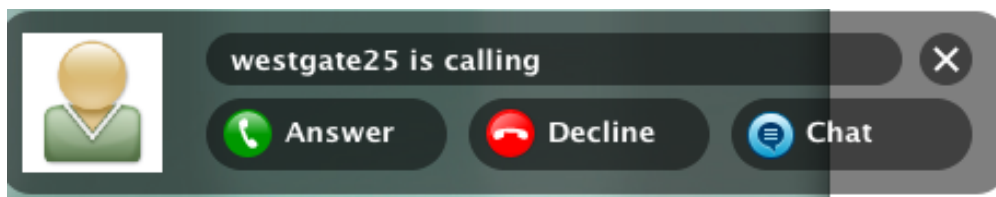

1. Open your Skype application in the Macintosh HD – Applications Folder
2. Sign in with your Username and Password
3. Type in the Skype name and add to contacts, then click on the Skype name you want to contact. Once it is added you can just click on the Skype name

4. The user is online if the icon in front of their name is green.
5. Click on the blue camera icon to invite the user to video Skype.

6. Your caller will receive a message to Answer. When they click Answer a video window will open.

7. Once the caller clicks on their Blue Video icon both users will be seen in the window. You will be small and they will be large. If you are not seeing the other caller make sure both of your Video icons are red.

8. To view your Video chat full screen go to your top menu bar and click on View and select Full Screen Video.
